St. Joseph's Catholic Primary School, Nechells Y2 Maths Learning Objectives
Items in red are essential learning targets

## Number and Place Value (PV)

Count in steps of 2,3 , and 5 from 0 , and in tens from any number, forward and backward

Recognise the place value of each digit in a two-digit number (tens, ones)

Identify, represent and estimate numbers using different representations, including the number line

Compare and order numbers from 0 up to 100; use <, > and = signs

Read and write numbers to at least 100 in numerals and in words

Use place value and number facts to solve problems.

## Multiplication \& Division (MD)

Recall and use multiplication and division facts for the 2,5 and 10 multiplication tables, including recognising odd and even numbers

Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication ( $\times$ ), division ( $\div$ ) and equals (=) signs

Show that multiplication of two numbers can be done in any order (commutative) and
division of one number by another cannot.

Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in context.

## Fractions (F)

Recognise, find, name and write fractions $1 / 3,1 / 4,2 / 4,3 / 4$ of a length, shape, set of objects or quantity.

Write simple fractions for example
$1 / 2$ of $6=3$ and recognise the equivalence of $2 / 4$ and $1 / 2$

## Addition \& Subtraction (AS)

Solve problems with addition and subtraction using concrete objects and pictorial representations, including those involving numbers, quantities and measures.

Apply increasing knowledge of mental and written methods

Recall and use addition and subtraction facts to 20 fluently and derive and use related facts up to 100.

Add and subtract numbers using concrete objects, pictorial representations and mentally including a 2 digit number and ones

Add and subtract numbers using concrete objects, pictorial representations and mentally including a 2 digit number and tens

Add and subtract numbers using concrete object, pictorial representations and mentally including a two 2 digit numbers

Add and subtract numbers using concrete objects, pictorial representations and mentally including adding three 1 digit numbers

Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot.

Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.

## Statistics (ST)

Interpret and construct simple pictograms, tally charts, block diagrams and simple tables

Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity

Ask and answer questions about totalling and comparing categorical data.

St. Joseph's Catholic Primary School, Nechells Y2 Maths Learning Objectives
Items in red are essential learning targets

## Shape (S)

Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line

Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces

Identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]

Compare and sort common 2-D and 3-D shapes and everyday objects.

## Position (P)

Order and arrange combinations of mathematical objects in patterns and sequences.

Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and threequarter turns (clockwise and anti-clockwise)

## Measurement (M)

Choose and use appropriate standard units to estimate and measure length/height in any direction ( $\mathrm{m} / \mathrm{cm}$ ); mass (kg/g); temperature ( ${ }^{\circ} \mathrm{C}$ ); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels

Compare and order lengths, mass, volume/capacity and record the results using >, < and =

Recognise and use symbols for pounds ( $£$ ) and pence (p); combine amounts to make a particular value

Find different combinations of coins that equal the same amounts of money

Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change

Compare and sequence intervals of time
Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times

Know the number of minutes in an hour and the number of hours in a day
